

Workspaces support knowledge sharing in formal and informal ways

Organsiational Operations

Only decisions relevant to my specific projects are communicated to me

Organsiational Operations

Finding expertise outside the project team or organizational unit is easy and accessible

Organsiational Operations

Cross-functional collaboration is enhanced by our organisational set-up

Organsiational Operations

Cross-departmental collaboration is common and effective

Organsiational Operations

Our current process architecture enables quick adaptation to changes in our markets or industry

Organsiational Operations

Our organizational design creates silos

Organsiational Operations

Teams operate in silos, often with little interaction with other departments

Organsiational Operations
